Peer Mediated Pivotal Response Treatment for Children with Autism Spectrum Disorders

January 26, 2017 | 10:00-11:30 a.m.

2125 Main Mall, [Scarfe Room 310](#)

Few evidence-based interventions target social-communication skills for children with autism spectrum disorder in the school setting. The evidence base for a variant of the pivotal response treatment (PRT) model, using peers instead of parents as intervention agents, will be provided in this colloquium. Reference to findings from current studies will also be included.

1.5 Type 2 Continuing Education Units (CEUs) are available free of charge to BCaBAs and BCBAs who attend this event. Sign in and sign out will be required, and you must bring your certificant number with you to the event.

Contact: pat.mirenda@ubc.ca

Light refreshments will be provided.

No RSVP Required.
